

# SUMMER SCHOOL

## DESIGN, PRODUCTION, MODELLING AND ANALYSIS OF 1D AND 2D TEXTILE PRODUCTS

**August 25<sup>th</sup> - 29<sup>th</sup> 2025**

### **Course description**

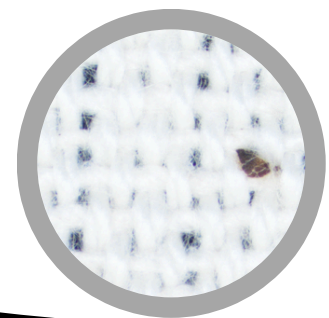

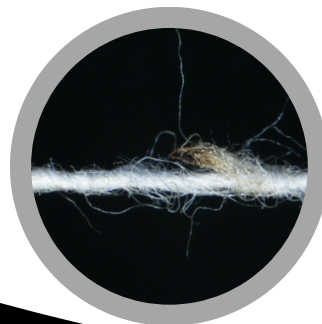

The Summer School offers a small tasting of textile design, production, modelling and analysis.

Main aim of this Summer School is to introduce the textile structure and thanks to methods learning by doing allow the participants get to know them.

### **Who can attend**

The Summer School is open to all students, both bachelor's and master's, who are interested in the topic of Summer School 2025, regardless of their country of origin. While all applicants are welcome, preference will be given to those with a background in textiles if the number of applicants exceeds the capacity.

**Language English**

**Payment Free of charge**

**Registration until June 21<sup>st</sup> 2025.**
